

Quant Week 8

4/3/25

Agenda

1. Icebreaker Question
2. Weekly Sequence (Hard)
3. Brain Teaser (Easy)
4. Project

Ice Breaker

What was your biggest inconvenience this week?

Brain Teaser

A robot is placed on a field with a length of five and a width of five. Starting at the top-left square its goal is to reach the bottom-right corner in the shortest way possible. If the robot can only move right or down, how many unique shortest routes can it take?

Weekly Sequence

$2/4, 4/6, 6/18, 8/36, 4/54, 8/486, ?$

Project Discussion/Work Time
